The following remarks are made in response to the Office Action mailed March 28, 2007, in which claims 1-27 have been allowed and prosecution is closed in accordance with the practice under Ex Parte Quayle.

The Office Action objects to the specification as failing to follow the preferred layout of a utility application. Specifically, the specification as originally filed does not include section headings. With this Response, a substitute specification including section headings is provided. The substitute specification further includes the claims as allowed. A marked-up copy of the specification showing the changes made to the specification is also included.

Applicants submit the specification contains no new matter.
